

AMENDMENTS TO THE SPECIFICATION

Please enter the following amendment to the specification. The amendment does not add any new matter to the application and is made simply to be consistent with the amendment of FIG. 3 in the application.

[0014] The present invention and its advantages will be better understood by referring to the following detailed description and the attached drawings. Figure 1 is a schematic diagram of a typical LNG refrigeration configuration in current use. Figure 2 illustrates the equipment system and configuration needed for the present invention, while Figure 3 is a ~~photograph~~ schematic of a barrel compressor with the inner parts extracted from one end for convenient maintenance. The invention will be described in connection with its preferred embodiments. However, to the extent that the following detailed description is specific to a particular embodiment or a particular use of the invention, this is intended to be illustrative only, and is not to be construed as limiting the scope of the invention. On the contrary, it is intended to cover all alternatives, modifications and equivalents that may be included within the spirit and scope of the invention, as defined by the appended claims.
